PROFESSIONAL SUMMARY

Robin Winters builds native iOS software and applied AI systems, with a focus on fitness technology.

WORK EXPERIENCE

ShowFlex Inc | iOS Engineer | Nov 2024–present

- Architected and developed a design-forward consumer iOS application using Swift and SwiftUI.
- Built a MapKit-based event discovery feature with advanced search and filtering capabilities.
- Created ingestion pipelines to normalize global event calendars and athlete metadata into structured data.
- Led cross-functional collaboration with engineering, product design, and external partners to ensure seamless delivery.

Yukon Systems | iOS Engineer, AI Systems Engineer | Mar 2023–2025

- Led technical prioritization and cross-functional delivery for AI-driven systems in high-reliability environments.
- Translated research concepts into actionable software requirements and execution plans for iOS devices.
- Collaborated with engineers on architecture decisions focusing on reliability, explainability, and performance.

Organic Alkaloids | iOS Developer | Jul 2017–Feb 2023

- Developed and maintained operational workflows for iOS devices to streamline overseas sourcing and vendor coordination.
- Managed logistics and shipment planning to enhance customer delivery processes.
- Fostered strong client relationships through effective communication and marketing strategies.

EDUCATION

The University of North Carolina at Chapel Hill | Bachelor of Arts, Communications

Founder Institute | Launch Track, Startup Accelerator | Oct 2025–Feb 2026 | Graduate

Le Cordon Bleu | Grand Diplôme

TECHNICAL FOCUS

Swift, SwiftUI, MapKit, Firebase, native iOS architecture, structured data pipelines, applied AI workflows, product delivery.

PROJECT AND WRITING EVIDENCE

TORos | Yukon Systems | Prototype

Robin Winters built TORos for Yukon Systems: a prototype, model-agnostic, multimodal decision engine that uses deliberation among multiple models to reach consensus.

Prototype status; no production deployment or measured accuracy/reliability claim. Development dates and collaborator credits are not yet documented.

Company article (published May 5, 2025; not a development date range):

ROLE INTERESTS

iOS developer, Forward Deployed Engineer and fitness-technology opportunities. These are target roles.

RECORD NOTES

Dates retain LinkedIn’s displayed precision; no Yukon end month is inferred. Education follows the updated LinkedIn profile. NASM credentials appear below; CPT and nutrition dates and verification links will be added when available. No sole authorship, prototype release or performance metrics asserted.

Updated October 21, 2026. Self-authored professional record.

FITNESS CREDENTIALS

Physique and Bodybuilding Coach (PBC) — National Academy of Sports Medicine (NASM)

Issued September 20, 2026; does not expire according to issuer page.

https://credentials.nasm.org/1fbcae42-b595-4fc8-a1ad-ac09fdc542b4

Certified Personal Trainer (NASM-CPT) — National Academy of Sports Medicine (NASM)

NASM Certified Nutritionist — National Academy of Sports Medicine (NASM)
